

Anti-Condensation Heater

IP-FPH1500.01

FAN-ASSISTED PTC HEATER | INTEGRATED BIMETALLIC THERMOSTAT | 1500W

230V | 50/60Hz

IP Enclosures provide a wide range of heating products for electrical enclosures. Anti-condensation heaters are required to prevent failures or corrosion caused by low temperatures or high humidity inside the enclosure. This occurs when ambient temperature is low and the equipment does not generate enough heat to maintain the minimum internal temperature. IP Enclosures heating products are manufactured to the highest quality in Italy.
